

TIRUMALA MOUNIKA

Phone: +91-7075285653 | **Email:** tirumalamounika25@gmail.com | **LinkedIn:** [linkedin.com/in/mounika-tirumala](https://www.linkedin.com/in/mounika-tirumala) | **Location:** Eluru, Andhra Pradesh

PROFESSIONAL SUMMARY

Results-driven Information Technology graduate with hands-on experience in computer vision, machine learning, and IoT systems. Demonstrated expertise in developing intelligent solutions using YOLO frameworks and object detection technologies. Strong proficiency in full-stack development with Java, Python, and web technologies. Passionate about leveraging technical skills to build innovative solutions that drive organizational success. Seeking a challenging role to contribute to cutting-edge technology projects.

CORE COMPETENCIES

Technical Skills:

- **Languages:** Java | Python | C | HTML | CSS | SQL
- **Frameworks & Tools:** YOLO (You Only Look Once) | Computer Vision | Machine Learning
- **Development Areas:** IoT Systems | Object Detection | Full-Stack Development | Data Analysis

Professional Skills:

- Time Management | Problem-Solving | Technical Communication
 - Observation & Critical Analysis | Attention to Detail | Team Collaboration
-

EDUCATION

Bachelor of Technology (B.Tech.) - Information Technology

Seshadri Rao Gudlavalleru Engineering College, Gudlavalleru, AP
2020 – 2024 | **CGPA:** 7.99/10

Intermediate (MPC Stream)

Sri Chaitanya Mahila Junior College, Gudavalli, AP
2018 – 2020 | **CGPA:** 8.5/10

Secondary School Certificate (SSC)

Siddhartha Vidyalaya School, Hanuman Junction, AP
2017 – 2018 | **GPA:** 9.8/10

KEY PROJECTS

Automated System for Chromosome Karyotyping Detection | 2024

Description:

Developed an intelligent computer vision system to automate the identification and categorization of chromosomes for medical diagnosis. Implemented cutting-edge object detection framework to significantly enhance accuracy and efficiency in genetic analysis.

Technical Implementation:

- Designed and trained YOLO (You Only Look Once) object detection model using extensive chromosome imagery dataset
- Developed comprehensive training pipeline for genetic structure recognition and classification
- Conducted rigorous evaluation and testing to ensure clinical-grade accuracy
- Documented technical aspects and implications for medical diagnosis field

Impact: Enhanced automation in genetic screening processes with improved detection accuracy

Technologies Used: Python | YOLO Framework | Computer Vision | Machine Learning

Automatic Fire Fighting Robot Using IoT

Description:

Engineered an autonomous IoT-based robotic system for intelligent fire detection and suppression in residential and industrial environments. Integrated multiple sensors with real-time response mechanisms.

Technologies Used: IoT Systems | Embedded Systems | Sensor Integration

CERTIFICATIONS & TRAINING

- **Python Fundamentals Certification** – GUVI | 2024
 - **Java Master Class** – APDSCC (Andhra Pradesh Department of Science & Culture) | 2024
-

EXTRACURRICULAR ACTIVITIES & ACHIEVEMENTS

- **Technical Events Participation:** Actively participated in college-level technical competitions and hackathons
 - **Seminar Conductor:** Organized and conducted technical seminars and workshops on emerging technologies
 - **Cultural Events:** Led initiatives in planning and executing cultural programs and events
 - **Leadership:** Demonstrated strong organizational and collaborative skills in team environments
-

DECLARATION

I hereby declare that the information furnished above is true to the best of my knowledge and belief. I am committed to contributing value to the organization and ensuring accuracy in all professional endeavors.

Date: January 2026
